## About KOHINOOR DECOR

### Who we are?

Incorporated in the year 1998, we 'Kohinoor Decor' are a sole proprietorship-based firm engaged as the foremost wholesale supplier and service provider for Interior designing and False Ceiling Products (Gypsum Plaster, Plaster of Paris, Gypsum Boards, P.O.P. Sheets, Metal Framing Accessories – G.I. Ceiling Sections, Aluminium Ceiling Tiles, Metal Ceiling Tiles, PVC Panels) and False Ceiling Services. Our products are high in demand due to their premium quality and affordable prices. Furthermore, we ensure to timely deliver these products to our clients, through this we have gained a huge client's base in the market. Under the direction of our mentor 'Mr. Mohd. Ilyas Sheikh (Proprietor)', we have been able to achieve a reputed name in the industry.

We, at Kohinoor Decor, one of the most recognized and leading manufacturing and trading firms in Nagpur, provide you with different types of Interior Designing, Gypsum False Ceiling (Residential/ Commercial), Installations, Maintenance or repairing at a professional rate of prescribed designs.

Our business is generally known for its next level ceiling designs, their resistance to extreme weather conditions, ease of services provided and skilled installations by workers.

We also take part in trading all varieties of ceiling products (Gypsum Powder, Gypsum Boards, Ceiling Tiles, Ceiling Sections, Gypsum and Plaster of Paris sheets) at a much cost-effective rate.

### From our Executive Owner,

With my 25 years of experience in this stream of interior designing, false ceiling contracts and all related Gypsum works, I have been able to recognize every bit of trading and supplying every commodity in this scenario.

Our business usually deals with better customer satisfaction with every ease of better execution of the work. Our executing staff never fails to perform their tasks regardless of the direction they have been given.

#### Mohd. Ilyas Sheikh

## FALSE CEILING SYSTEM

*Bring Class and Style to your Beautiful Spaces*

*Get inspired by the latest False Ceiling trends for your spaces*

We offer world of creative possibility that can help transform a space into something sculptural and stunning. Our portfolio of Innovative Ceiling solutions includes Plasterboard Decorative Range, Colorful fiberglass clouds and baffles, Gypsum PVC Laminated, and unmatched aesthetics from Perforated Acoustical gypsum. Whether the goal is architectural impact alone or acoustical & thermal performance, enjoy design freedom and flexibility with Kohinoor Decor Ceiling Solutions.

We are recognized as a prominent and leading authorized False Ceiling services provider from Nagpur. Our False Ceiling range differs from different attributes to offer Plaster Of Paris (POP) False Ceiling, Gypsum False Ceiling, Grid Ceiling, PVC False Ceiling, Linear Cell Ceiling and Open Cell ceiling.

## Gypsum False Ceiling

Gypsum Plasterboard ceiling is a monolithic suspended system that allows you to achieve a beautiful, homogeneous appearance and a smooth finish without any visible joints. Curves, steps and other design options can also be achieved with gypsum plasterboards.

We have gained recognition in the industry by offering an excellent quality assortment of Commercial and Residential Gypsum False Ceiling. We do design modular false ceilings or we can follow patterns given by customer. We use high quality gypsum material keeping in mind the defined industry standards. We also provide all the work and complete our projects within stipulated time frame.

<b>Material</b>	Gypsum
<b>Panel Built Type</b>	Gypsum Plasterboard
<b>Work Technique</b>	Machine & Labor
<b>Ceiling Type</b>	Concealed Grid
<b>Design</b>	As per customer's requirement

## Plaster of Paris (POP) False Ceiling

POP or Plaster of Paris, is a quick-setting plaster made of white powder that hardens when exposed to water and then allowed to dry. POP is most used to make false ceilings and protrusions in interior design.

Keeping the diverse requirements of our customers, we are indulged in providing Plaster of Paris Design to our customers. These Plaster of Paris Designs are executed keeping the preferences and budget of our clients in mind. We execute these POP designs within the stipulated time period.

<b>Material</b>	Plaster of Paris (POP)
<b>Panel Built Type</b>	Plaster of Paris (POP) Sheet
<b>Work Technique</b>	Machine & Labor
<b>Ceiling Type</b>	Concealed Grid
<b>Design</b>	As per customer's requirement

## Grid Ceiling

The Grid Ceiling systems are lightweight lay-in and clip-in systems available in concealed or exposed grid options. The ceiling has substantial sound reduction and absorption qualities. We offer 2x2 and 2x4 sized Grid ceiling tiles and in various patterns. Depending on the requirements of design and space, the tiles offer a wide range of decorative effects. Pre-finish options include smooth, textured, patterned, or perforated effects. One type of suspended ceiling is made up of Acoustic Ceiling Tiles (ACT) and a stick-built grid system. Sometimes called a lay-in ceiling, this type of system is versatile, durable, and cost effective.

We are a trusted name in trading and supplying a wide array of Grid Ceiling. The range of our products is widely renowned for its excellent quality and is widely used in the construction industry. We make sure to offer these products in compliance with the international quality standards. Our product range is widely used in mineral fiber ceiling.

<b>Material</b>	Gypsum / Mineral Fiber / Metal (Aluminium / G.I.) / PVC Laminated
<b>Panel Built Type</b>	Ceiling Tile & Panel (2 x 2   2 x 4)
<b>Work Technique</b>	Machine & Labor
<b>Ceiling Type</b>	Exposed Grid   Concealed Grid
<b>Design</b>	As per customer's requirement

## Acoustic Perforated Ceiling

Perforated Ceiling Tiles are designed to suit standard suspended grid systems, typically in commercial construction. Suitable for a range of commercial environments where sound absorption is required, Perforated Ceiling Tiles are often used in shopping centres, offices, restaurants, libraries and galleries.

Perforated Gypsum panels have excellent acoustic features and can be used for both ceilings and walls. Plaster boards with different perforations in symmetric form not only enhance the acoustics but also increase the aesthetics of any space.

<b>Material</b>	Gypsum
<b>Panel Built Type</b>	Perforated Ceiling Tile & Panel
<b>Work Technique</b>	Machine & Labor
<b>Ceiling Type</b>	Exposed Grid   Concealed Grid
<b>Design</b>	As per customer's requirement

## PVC False Ceiling

Polyvinyl Chloride ceilings, or PVC ceiling, as it's often called, is one of the most common types of ceiling today. PVC ceilings are durable and sturdy. They will last for a very long time and require very little maintenance.

We have been counted amongst the most trusted names in this domain, engaged in providing Designer PVC Ceiling Service. Leveraging by the vast experience of this domain, we render the premium quality of PVC False Ceiling Services. Our systematic execution and cost effectiveness, makes the false ceiling services highly demanded. In accordance to the specifications provided by the customers, the PVC designer false ceilings are rendered by us in user-defined specifications.
